Re: NEW CRUISE SHIP BERTH - BID OPENING DATE

The City & Borough of Juneau - Docks & Harbors announces a delay of the bid opening of the new Cruise Ship Berth Project. In an abundance caution, Docks & Harbors will not open bids on November 19th, in order to resolve an issue regarding the pending transfer of state tidelands upon which a small portion of the project would be constructed. The new bid opening date will be announced following the Final Finding and Decision of the Alaska Department of Natural Resources to convey tidelands to the City & Borough of Juneau. DNR's Division of Mining, Land and Water preliminary decision recommends conveyance of the submerged land to CBJ. A Final Finding and Decision is expected in January 2014.
