

Year # 2 surface restorations placed in posterior teeth in patients age 1-15

****2007 we changed software systems in July of 2007 and data transfer does not allow me to filter my reports by patient's age.**

2008	27
2009	28
2010	25
2011	31
2012	57
2013	52
2014	94
2015	54*
2016	45*

***I began referring very young children and children with more than 2-3 teeth with decay to Dr. Blanco when she opened her pediatric dental practice here in 2015.**
