

Uploading ANCSA Proxy Filings via Alaska ZendTo

Alaska ZendTo is a program that allows people to securely transfer files to one another via the Internet. Through the program, a person may upload a file to the server and the program automatically sends an email to the person intended to receive the file. Once that person receives the email, they must click on a link provided in the email to receive the file. Without the link provided in the email, a user cannot access the file that was sent by the sender.

To access Alaska ZendTo, go to <https://drop.state.ak.us/drop/>.

The main screen looks like this:

After you click **Send confirmation** you should see the following screen:

After this screen comes up, check your email. Alaska ZendTo will send you a confirmation email with instructions. The email shown below is sent to the email address you provided.

Click on the link in the email to continue the process.

This takes you to the Drop-off screen shown below.

PLEASE NOTE

Files uploaded to Alaska ZendTo are scanned for viruses. But still exercise the same degree of caution as you would with any other file you download. Users are also **strongly encouraged** to encrypt any files containing sensitive information (e.g. personal private information) using a tool such as "7-Zip", before sending them via Alaska ZendTo!

This web page will allow you to drop-off (upload) one or more files for a State of Alaska user. The recipient will receive an automated email containing the information you enter below and instructions for downloading the file. Your IP address will also be logged and sent to the recipient for identity confirmation purposes.

After **name:** type in ancsa

After **Email:** type in ancsa@alaska.gov

Click [Add Recipient](#). Then you may close the window by clicking the "x" in the upper right hand corner of the pop-up window.

NEXT: You can add a brief note to send to the Division if you like in the space provided.

NEXT: On the drop off screen click [Click to Add Files or Drag Them Here](#). This button will bring up a file menu to allow you to select the file(s) you want to upload. Once you have selected a file, its location on the computer will appear under **FILENAME 1**.

The screenshot shows the ZendTo web interface. At the top, there are navigation links for 'Home' and 'Login', and the 'ZendTo' logo. A red-bordered box contains a 'PLEASE NOTE' section with text about virus scanning and encryption. Below this is a paragraph explaining the service. The form includes a 'From:' field with the email 'Andrea <andrea.moore@alaska.gov>'. There are four checkboxes: 'Calculate SHA-256 checksum of each file.', 'Send an email to me when each recipient picks up the file(s).', 'Send e-mail message to recipients', and 'which includes Passcode as well as Claim ID'. The 'To:' field also contains 'Andrea <andrea.moore@alaska.gov>'. A text area for a 'Short note to the Recipients:' is present, with a character count of '917 / 1000 left'. A blue button 'Click to Add Files or Drag Them Here' is centered. Below is a table with columns 'Filename', 'Size', and 'Description'. One file is listed: '1: ANCSA_ZendToInstructions.pdf' with a size of '636.5 KB' and a description of 'ANCSA sample file'. A red 'x' icon is next to the description box. At the bottom, there is a blue button 'Drop-off Files' and a total size indicator '636.5 KB / 10240 MB'.

You can add additional files by clicking [Click to Add Files or Drag Them Here](#). You can also add descriptions of each file in the Description boxes.

Once you have selected all of the files you want to upload, click [Drop off Files](#).

When you click [Drop off Files](#), the following screen will appear:
