

**Exploring an Alaska, British Columbia, Washington  
Maritime Green Corridor  
First Mover Commitment**

**Project:** Launch a collaborative effort led by ports, industry, governments, and non-governmental organizations to explore a maritime green corridor aimed at accelerating the deployment of zero emission ships and operations between Alaska, British Columbia, and Washington.

**Background:** A green corridor is a cruising or shipping route where zero climate and air emission solutions are demonstrated and supported. Green corridors—through collaboration across sectors—create the technological, economic, and regulatory feasibility needed for zero-emission ships to succeed. In 2021, twenty-four countries, including the United States and Canada, signed the Clydebank Declaration and in doing so, committed to support the establishment of at least six green corridors by 2025 while aiming to scale up activity in future years. It is up to first movers to collaborate, define and implement the optimum pathway to get to zero.

While initially focused on cruise ships and cruise ports in the Pacific Northwest, other industries are encouraged join.

**Commitment to Participation:**

We, the undersigned participants in this voluntary effort, commit to:

- Working together to explore the feasibility of a green corridor in the Pacific Northwest of North America;
- Leveraging and supporting the emission-reduction efforts already underway and using the green corridor as a testbed for zero-emission ships and the maritime industry transition to zero climate and air emissions; and
- Working collaboratively to define the governance structures, terms, and frameworks needed to guide this regional effort.

Any partner may leave the project upon notification to the other partners at the contact information below.
